Ibaraki Prefectural Government

Results of the analysis on fisheries products (2 species, 3 samples)

(Pelagic fish)

Ibaraki Prefecture Environmental Radiation Monitoring Center

| Sampling site | Item | Radioactivity level (Bq/kg) (First line: Radioactive iodine, second line: Radioactive caesium) | | | | | |
|---------------|--|--|---------------------------|------------------|---------------------------|------------------|---------------------------|
| | | The inspection before last | | Last time | | This time | |
| | | Sampling date | Measure- ment value | Sampling date | Measure- ment value | Sampling date | Measure- ment value |
| Oarai Town | Japanese sardine (<i>Sardinops melanostictus</i>) | | | 13 July | Not detectable | 27 July | Not detectable |
| | | | | | 40 | | 27 |
| Hokota City | | | | 25 April | 14 | | |
| | | | | | 41 | | |

(Freshwater fish)

Ibaraki Prefecture Environmental Radiation Monitoring Center

| Sampling site | Item | Radioactivity level (Bq/kg) (First line: Radioactive iodine, second line: Radioactive caesium) | | | | | |
|--------------------------------------|--|--|------------------------|------------------|---------------------------|------------------|-------------------------|
| | | The inspection before last | | Last time | | This time | |
| | | Sampling date | Measure- ment value | Sampling date | Measure- ment value | Sampling date | Measure- ment value |
| Kuji River (Daigo Town) | Ayu sweetfish (<i>Plecoglossus altivelis</i>) | | | 27 May ※1 | 2 86 | 27 July | Not detectable 90 |
| | | | | 27 May ※2 | Not detectable 89 | | |
| | | | | 27 May ※3 | Not detectable 83 | | |
| | | | | | | 27 July ※5 | Not detectable 84 |
| | | | | 27 May ※4 | 2 73 | | |
| Kuji River (Hitachiomiya City) | | | | | | | |
| Kuji River (Hitachiota City) | | | 19 May | 3 174 | | | |

* Provisional regulation value for fish: Radioactive iodine: 2000 Becquerel/kg
Radioactive caesium: 500 Becquerel/kg

- ※1 Offshore Shimonomiya
- ※2 Offshore Daigo
