

(Provisional translation)

Samples taken by the National Saury Fishery Association

Report on emergency biotic survey

Analyzed on 1 September

National Research Institute of Fisheries Science,
Fisheries Research Agency

Table-1 Sample

Species	Sampler	Sampling date	Sampling area	Weight (g)	Length (mm)	Remarks
Pacific saury (<i>Cololabis saira</i>)	National Saury Fishery Association	30 August, 2011	43°09'N, 146°30'E	181	337	

Table-2 Measurement of radionuclide analysis

Species	Part	Sample weight	Detected radionuclide and radioactivity level (Bq/kg-wet)		
			I-131	Cs-134	Cs-137
Pacific saury (<i>Cololabis saira</i>)	Muscle	307	Not detectable	Not detectable	Not detectable
	Whole body	328	Not detectable	Not detectable	Not detectable

(Provisional translation)

Samples taken by the National Saury Fishery Association

Report on emergency biotic survey

Analyzed on 25 August

National Research Institute of Fisheries Science,
Fisheries Research Agency

Table-1 Sample

Species	Sampler	Sampling date	Sampling area	Weight (g)	Length (mm)	Remarks
Pacific saury (<i>Cololabis saira</i>)	National Saury Fishery Association	23 August, 2011	43°26'N, 148°06'E	185	333	

Table-2 Measurement of radionuclide analysis

Species	Part	Sample weight	Detected radionuclide and radioactivity level (Bq/kg-wet)		
			I-131	Cs-134	Cs-137
Pacific saury (<i>Cololabis saira</i>)	Muscle	309	Not detectable	Not detectable	Not detectable
	Whole body	319	Not detectable	Not detectable	Not detectable

(Provisional translation)

Samples taken by the National Saury Fishery Association

Report on emergency biotic survey

Analyzed on 18 August

National Research Institute of Fisheries Science,
Fisheries Research Agency

Table-1 Sample

Species	Sampler	Sampling date	Sampling area	Weight (g)	Length (mm)	Remarks
Pacific saury (<i>Cololabis saira</i>)	National Saury Fishery Association	16 August, 2011	43°41'N, 147°13'E	156	320	

Table-2 Measurement of radionuclide analysis

Species	Part	Sample weight	Detected radionuclide and radioactivity level (Bq/kg-wet)		
			I-131	Cs-134	Cs-137
Pacific saury (<i>Cololabis saira</i>)	Muscle	303	Not detectable	Not detectable	Not detectable
	Whole body	279	Not detectable	Not detectable	Not detectable

Samples taken by the National Saury Fishery Association

Report on emergency biotic survey

Analyzed on 11 August

National Research Institute of Fisheries Science,
Fisheries Research Agency

Table-1 Sample

Species	Sampler	Sampling date	Sampling area	Weight (g)	Length (mm)	Remarks
Pacific saury (<i>Cololabis saira</i>)	National Saury Fishery Association	9 August, 2011	44°40'N, 154°04'E	181	329	

Table-2 Measurement of radionuclide analysis

Species	Part	Sample weight	Detected radionuclide and radioactivity level (Bq/kg-wet)		
			I-131	Cs-134	Cs-137
Pacific saury (<i>Cololabis saira</i>)	Whole body	312	Not detectable	Not detectable	Not detectable
	Muscle	320	Not detectable	Not detectable	Not detectable

(Provisional translation)

Samples taken by the National Saury Fishery Association

Report on emergency biotic survey

Analyzed on 8 August

National Research Institute of Fisheries Science,
Fisheries Research Agency

Table-1 Sample

Species	Sampler	Sampling date	Sampling area	Weight (g)	Length (mm)	Remarks
Pacific saury (<i>Cololabis saira</i>)	National Saury Fishery Association	5 August, 2011	43°08'N, 146°35'E	73	262	

Table-2 Measurement of radionuclide analysis

Species	Part	Sample weight	Detected radionuclide and radioactivity level (Bq/kg-wet)		
			I-131	Cs-134	Cs-137
Pacific saury (<i>Cololabis saira</i>)	Muscle	314	Not detectable	Not detectable	Not detectable
	Whole body	296	Not detectable	Not detectable	Not detectable
