

High Risk species、Risk species 一覧 (豪州ホームページより)

Condition C9537

①High Risk species (Specified species)

Non-salmonid finfish sourced from all countries other than New Zealand.

Product may only be imported head-off, de-gilled and eviscerated (gutted). Refer to the ICON case 'Finfish - Consumer ready form' or 'Finfish – Eviscerated, head off'.

- All species of farmed finfish (i.e. fish that are grown and harvested in an aquaculture system)
- All species in the Family *Aulorhynchidae*
- All species in the Family *Embiotocidae*
- All species in the Family *Gadidae*
- All species in the Family *Gasterosteidae*
- All species in the Family *Lotidae*
- All species in the Family *Osmeridae*
- All species in the Family *Pleuronectidae*
- All species in the Family *Scophthalmidae*
- *Ambloplites* spp.
- *Ameiurus* spp.
- *Ammodytes* spp.
- *Anguilla* spp.
- *Anoplopoma* spp.
- *Apodinotus* spp.
- *Argentina* spp.
- *Brevoortia* spp.
- *Clupea* spp. includes herring and sprat (*Sprattus* spp. is synonymous with *Clupea* spp.), but does not include *Sardinella* spp. or *Sardina* spp.
- *Dorosoma* spp.
- *Esox* spp.
- *Eutrigla* spp.
- *Fundulus* spp.
- *Ictalurus* spp.
- *Lampetra* spp.
- *Lepomis* spp.
- *Merluccius* spp.
- *Micropterus* spp.
- *Morone* spp.
- *Moxostoma* spp.
- *Neogobius* spp.
- *Notropis* spp.
- *Paralichthys* spp.
- *Perca* spp.
- *Percopsis* spp.
- *Pimephales* spp.
- *Pomatoschistus* spp.
- *Pomoxis* spp.
- *Sander* spp. (former name *Stizostedion* spp.)
- *Sardinops* spp.
- *Scomber* spp.
- *Sebastes* spp.

② Risk species (Approved Specified species)

Non-salmonid finfish sourced from all countries other than New Zealand.

Product must not have not been grown or harvested in an aquaculture system (farmed). Product must be at least eviscerated (gutted) prior to importation and must be accompanied by a valid import permit

※②-2に該当

- Acanthopagrus* spp. (former name *Mylio* spp.)
- Dicentrarchus* spp.
- Mugil* spp.
- Solea* spp.
- Sparus* spp.
- Thamnaconus* spp. (former name *Navodon* spp.)

Non-salmonid finfish sourced from all countries in, and islands surrounding Asia.

Product must not have not been grown or harvested in an aquaculture system (farmed). Product must be at least de-gilled and eviscerated (gutted) prior to importation and must be accompanied by a valid import permit.

※②-1に該当

- Epinephelus* spp.
- Evynnis* spp.
- Lateolabrax* spp.
- Oplegnathus* spp.
- Pagrus* spp.
- Pseudocaranx* spp.
- Seriola* spp.
- Takifugu* spp.
- Thunnus* spp.

Non-salmonid finfish sourced from Japan.

Product must not have not been grown or harvested in an aquaculture system (farmed). Product must be at least eviscerated (gutted) prior to importation and must be accompanied by a valid import permit.

※②-2に該当

- Parapristipoma* spp.
- Stephanolepis* spp.

③ Low Risk species (Non-Specified species)

Non-salmonid finfish species and species in families that do not appear in the **High Risk species (Specified species)** or the **Risk species (Approved Specified species)** list and have not been grown or harvested in an aquaculture system (farmed).
