

CHAPTER 3

FISH AND CRUSTACEANS, MOLLUSCS AND OTHER AQUATIC INVERTEBRATES

Notes

1. This chapter does not cover:
 - (a) mammals of heading 0106;
 - (b) meat of mammals of heading 0106 (heading 0208 or 0210);
 - (c) fish (including livers, roes and milt thereof) or crustaceans, molluscs or other aquatic invertebrates, dead and unfit or unsuitable for human consumption by reason of either their species or their condition (Chapter 5); flours, meals or pellets of fish or of crustaceans, molluscs or other aquatic invertebrates, unfit for human consumption (heading 2301); or
 - (d) caviar or caviar substitutes prepared from fish eggs (heading 1604).
2. In this chapter, the term 'pellets' means products which have been agglomerated either directly by compression or by the addition of a small quantity of binder.

Additional notes

1. For the purposes of subheadings 0305 32 11 and 0305 32 19, cod fillets (*Gadus morhua*, *Gadus ogac*, *Gadus macrocephalus*) having a total salt content by weight of 12 % or more which are fit for human consumption without further industrial processing, are considered to be salted fish.

However, frozen cod fillets which have a total salt content by weight of less than 12 % are to be classified under subheadings 0304 71 10 and 0304 71 90, in so far as the actual and lasting preservation depends essentially upon freezing.

2. For the purposes of the subheadings referred to in the third paragraph, the term 'fillets' includes 'loins', i.e. the strips of meat constituting the upper or lower, right or left, side of a fish insofar as the head, guts, fins (dorsal, anal, caudal, ventral, pectoral) and bones (spinal column or main backbone, ventral or costal bones, branchial bone or stapes, etc.) have been removed.

The classification of such products as fillets is unaffected by cutting them into pieces, provided that these pieces can be identified as having been obtained from fillets.

The provisions of the first two paragraphs apply to the following fish:

- (a) tuna, of the genus *Thunnus*, of subheadings 0304 49 90 and 0304 87 00;
- (b) swordfish (*Xiphias gladius*) of subheadings 0304 45 00 and 0304 84 00;
- (c) marlin, sailfish and spearfish, of the family *Istiophoridae*, of subheadings 0304 49 90 and 0304 89 90;
- (d) oceanic sharks (*Hexanchus griseus*, *Cetorhinus maximus*, *Rhincodon typus*, or of the families *Alopiidae*, *Carcharhinidae*, *Sphyrnidae* and *Isuridae*) of subheadings 0304 47 90 and 0304 88 19.

SECTION IV

PREPARED FOODSTUFFS; BEVERAGES, SPIRITS AND VINEGAR; TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES**Note**

1. In this section, the term 'pellets' means products which have been agglomerated either directly by compression or by the addition of a binder in a proportion not exceeding 3 % by weight.

CHAPTER 16

PREPARATIONS OF MEAT, OF FISH OR OF CRUSTACEANS, MOLLUSCS OR OTHER AQUATIC INVERTEBRATES**Notes**

1. This chapter does not cover meat, meat offal, fish, crustaceans, molluscs or other aquatic invertebrates, prepared or preserved by the processes specified in Chapter 2 or 3 or heading 0504.
2. Food preparations fall in this chapter provided that they contain more than 20 % by weight of sausage, meat, meat offal, blood, fish or crustaceans, molluscs or other aquatic invertebrates, or any combination thereof. In cases where the preparation contains two or more of the products mentioned above, it is classified in the heading of Chapter 16 corresponding to the component or components which predominate by weight. These provisions do not apply to the stuffed products of heading 1902 or to the preparations of heading 2103 or 2104.

For preparations containing liver, the provisions of the second sentence shall not apply in determining the subheadings within heading 1601 or 1602.

Subheading notes

1. For the purposes of subheading 1602 10, the expression 'homogenised preparations' means preparations of meat, meat offal or blood, finely homogenised, put up for retail sale as food suitable for infants or young children or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition, no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of meat or meat offal. This subheading takes precedence over all other subheadings of heading 1602.
2. The fish, crustaceans, molluscs and other aquatic invertebrates specified in the subheadings of heading 1604 or 1605 under their common names only, are of the same species as those mentioned in Chapter 3 under the same name.

Additional notes

1. *For the purposes of subheadings 1602 31 11, 1602 32 11, 1602 39 21, 1602 50 10 and 1602 90 61, the term 'uncooked' is to apply to products which have not been subjected to any heat treatment or which have been subjected to a heat treatment insufficient to ensure the coagulation of meat proteins in the whole of the product and which, therefore, in the case of subheadings 1602 50 10 and 1602 90 61, show traces of a pinkish liquid on the cut surface when the product is cut along a line passing through its thickest part.*
2. *For the purposes of subheadings 1602 41 10, 1602 42 10 and 1602 49 11 to 1602 49 15, the expression 'cuts thereof' applies only to prepared or preserved meat which, due to the size and the characteristics of the coherent muscle tissue, is identifiable as having been obtained from hams, shoulders, loins, or collars of domestic swine, as the case may be.*
